

3127-040

Panel Wattmeter

The 100 μ A Rigid Line Wattmeters form a complete power measurement system when combined with the appropriate 1-5/8", 3-1/8", 4-1/16" or 6-1/8" rigid line section and Plug-In Elements.

3127 Series Panel Wattmeters are available in six 19" panel-mounted configurations with dual meters, single meter or single meter with forward/reflected power switch. Scale choices include 15/30/60 kW and 5/10/25 kW. Plug-In Elements must be ordered according to the desired frequency and power ranges, the meter scales and size of the line section selected for use with the meter.

SPECIFICATIONS

Meter Scales	5/10/25 kW
Type	Dual 4-1/2 inch rectangular on panel
